

# Home Based Services

**Bay State**  
Community Services

*Offering services to your family in your home allows us to connect and support your family in a safe and comfortable space. Our team will take the time to get to know your family, identify your strengths, and understand what you need to move forward.*

In-Home Therapy Services offers a structured, consistent, strength-based therapeutic relationship between a Master's level clinician and the youth (under the age of 21) and family for the purpose of treating the youth's behavioral health needs, including improving the family's ability to provide effective support for the youth to promote his/her healthy functioning within the family.

Interventions are designed to enhance and develop the family's capacity to improve the youth's functioning in the home and community and may prevent the need for the youth's admission to an inpatient hospital, psychiatric residential treatment facility, or other treatment setting.
